August 5.—Sin :—I have the honor to reour to the Department that this morning entered Mobile Bay, passing between Forts Morgan and Gaines, and encounterng the rebel ram Tennessee, and the ganboats of the enemy, viz: The Scima, Morgan and Gaines. The attacking fleet was under way by 5:45 a. m., in the following | red for a week past until | yesterday about order: The Brooklyn with the Actorora on | 6 a. m., heavy guns were heard in the diher port side, the Hartford with the Metacomet, the Richmond with the Port Royal the Lackawana with the Seminole, the Monongahela with the Tecumsch; the Ossipple with the Hasea, the Oncida with the Galena. On the starboard of the fleet was the proper position of the Monitors or Fort Morgan opened upon us at 10 min-

utes past 7 o'clock, and soon after this the action became lively. As we steamed up, the main ship chanel, there was some difficulty ahead, and the Hartford passed on nhend of the *Brooklyn*. At 40 minutes past 7 the Tecumseh was

struck by a torpedo and sunk, going down very rapidly, and carrying down with her all her officers and crow with the exception of the pilot and 8 or 9 men who were saved by a hoat that I sent from the Metacomet, which was alongside of me. The Hartford had passed the bonts be

fore 8 o'clock, and finding myself raked by different localities for the collection of U. | the rebel gunboats, I ordered the Metacomct to east off and go in pursuit of them, one of which, the Selma, she succeeded in capturing. All vessels had passed the process was still amarontly uniniared in her down at full speed. The Monongahela was the first that struck her and though she may have injured her badly, yet she lid not succeed in disabling her. The Lackawana also struck her but ineffectually. The flag-ship gave her a severe shock with her bow and as she passed fired into her a whole port broadside of solid 9 inch shot and 13 pounds of powder at a distance of not more than 12 feet.

the Hartford and the rest of the fleet were bearing down upon her, when at 10 a. m., she surrendered. The rest of the rebel fleet, viz: The Morgan and Gaines succeeded in getting back under the protection of Fort Morgan. This terminated the action of the day.

Having had many of my own men wounded boy, became trightened by the vehicle hit- and the surgeon of the Tennessee being very desirous to have Admiral Buchanan removed to the hospital, I sent a flag of truce to the commanding officer of Fort Bennett's dry goods store, where the boy | Morgan, to say, that if he would allow the wounded of the fleet, as well as their own to be taken to Pensacola where they could be better cared for than here, I would send out one of our vessel+ provided she would be permitted to return bringing back what she did not take out. Gen. Page consented and the Metacomet was

The total loss on our side is 40 killed and 88 wounded.

On the rebel ram Tennessee, we captured 20 officers and about 170 men. On the Selma were taken 90 officers and men. I will send a detailed dispatch by the first opportunity. Very respectfully, your obedient servant, D. G. FARRAGUT.

Rear Admiral. Hon. Gideon Wells, See'y of Navy. New York; August 15 .- The New Or leans Era says Admiral Farragut chose a novel position in going into the fight at Mobile, and maintained it throughout all the terrible fighting. Borrowing Papers .- Of all neighborty transactions, "says an exchange," that of borrowing newspapers is the most reprehensible. Just when you are comfortably seated at home, and ask for the evening paper, to be told that it is "lent," that some kind neighbor has borrowed it to read, is extremely vexatious to a body's nerves. Very few things are more really mean than to borrow a newspaper. It is had enough to be eternally boxing your neighbors with horrowing anything, but to make a business of asking the loan of their papers or magazines, is the ne plus ultra of borrowing. When you ask for your neighbor's paper again, just see if he will lend you his tooth-pick : you can return it before he will be through with his supper. At the present high prices it is much cheaper to borrow than to buy. But pray don't trouble your neighbor with borrowing his paper.

NEW PASSENGER COACHES .- The Fond du Lac Reporter makes the following men- limited. tion of some new passenger coaches just completed in that city for the Northwestern Railway Company:

"No. 29 of the first class coaches on the C. & N.-W. Railway has just been completed, and No. 30 ran into the paintshop. The C. & N.-W. Cars are equal to any in the West for excellent construction.

The beautiful linish of the splendid Passenger Coaches built in this city at the Car shops of the C. & N. W. Railway, has often been admired both by strangers and the people on the road. The painting, lettering, and polished brightness of the Cars is equal to any in the West, if not superior, and we are proud to say that it is all due to the superior skill of Fond du Lac workmen, men who have lived here for years, and are glad to own Fond du Lac as their home.

THE Augusta Constitutionalist says in a late article; "When we grow happy on paper, over half a State lost, and a Capital not yet saved, let us look through the windows of the blockade, and see with Europian eyes how we do look. We do not mean to form our hopes upon what the paid Journals of England and France write for pe cuniary recompense.' So all the fine enlogics passed by the organs of Victoria and Louis Napoloan, upon the rebel Confederacy, it appears that these culogies were bought and paid for by rebel money. Poor dogs! they actually have to pay the Hessian newspapers of Europe large sums for expressing a good opinion of the rebel cause. That is indeed humiliation, and degredation.

It is stated on good authority that some eight hundred emigrants have been landed at Deer Island, in Boston harbor, within a few days, and immediately enlisted in the army, receiving the bounty, thus relieving that number of Bostonians from the draft. Most of the men came from Ireland, although a ship load has also arrived from Antwerp and Hamburg. It is reported that in Germany the movement in favor of emigrating to America, with the design of enlisting in the Union army is exceedingly popular, and no difficulty is me: in obtaining recruits.

LITEBARY CURI SUTESS-Dug King, of the News depot, has received from a friend in the army a number of specimens of literature gathered from some battle field that they had felt constrained to skedaddle from, which are curious, particularly as exhibiting the high state of culture attained among the chivalry. Among the documents is a love letter that is "awful sweet." It is too had the fair one who was to be the recipient should have failed to get it, "the course of true love;" etc,

In his last fight, General McPherson rode a favorite black horse that had borne him through every battle from Shiloh to Atlanta. A member of his staff says that the General had almost come to feel that horse and rider bore charmed lives. He would mount no other but this fine steed in the hour of imminent peril. The now riderless war borse is recovering, and is on his way from the battle fields of Georgia to the clover-fields of Ohio.

Loss or Life on Rathways .- An ingenious writer in a recent number of the Revue des Deux Mondes computes the average yearly loss of life on railway journeys as 1 in 7,000,000 travelers, whereas 70,000 in 20,000,000 travelers would be no more than the fair proportion to the annual loss of life in former days among travelers by

land and sea. IMPORTANT EXPEDITION. -Private letters state that a very important expedition, under Gen. A. J. Smith, has left Memphis, going into Northern Mississippi. The destination is contraband. Transporta-

tion and rations for quite a trip were taken. The railroad is open now to Holly Springs. THE PHILADELPHIA papers say that nothing has been done in that city toward raising the 30,000 militia that the Governor lately called for. Perhaps a little rebel

fire like that at Chambersburg would do them good. Gen. Scott is a "brevet" Lieutenaut-Gen

eral, while Gen. Grant, holding his title under special actof Congress, is a "lineal" Lieutenant-Ceneral.

It appears that after the store had been set on fire twice by igniting paper, he succeeded in extinguishing the flames when the wretches re-entered his house, the one of them struck the Doctor on the check with a bit of burning pine wood lipped in turpentine, and he carries the sear yet. They then caught hold of a demijohn of alcohol, breaking which, the llames instantly enveloped the entire store. As the ruffians were making the best of their way out, and coming toward Dr. Miller, he seized a double barreled gun each barrel loaded with six slugs, and gave them the contents of a barrel cach The first one was hit in the face, and the ther received the charge in his breast. Both fell, and the Doctor shut the door, and they were consumed in the funeral hyre their own hands had lighted. Mr. Hiller is a man about forty-live years of

CorperHEADISM DEFINED.-At a recent convention held in Ohio, one of the delegates thus aptly illustrated the position of those blatant politicians who are so loud and so constant in their complaints of the dministration and the conduct of the war. He said that if you throw a basket of corn into a hog pen, you can always tell which hog it is that squeals. It is the hog that doesn't get a "nubbin." So it is in polities. When you see a politician squealing over the country, and making a great outery, it is fair presumption he is a hog without a "nubbin."

A correspondent says that, just before our army crossed the James, a private sol-dier in a New York regiment was taken ick and left in the house of the late ex-President Tyler. The President's daughter was in charge of the mansion, and took cure of the invalid. Acquaintance ripened into affection, and the pair were married last week. Unfortunately for the romancer of the twentieth century, the soldier's name is John Kick.

RUNAWAY.-There was a lively ronaway on Main Street, about 10 o'clock last evening, which promised serious results but fortunately did not fulfil the promise. A horse attached to a buggy driven by a boy, became frightened by the vehicle hitting his heels, and started on a run down the street, taking to the sidewalk near Mr. Bennett's dry goods store, where the boy was spilt out and the buggy overturned on the walk directly in front of Tallman & Collin's office. NEWS FROM GRANT & SHERIDAN.

FARRAGUT'S OFFICIAL DISPATCH

Washington, August 15 .- The following official dispatches have been received by the Navy Department :

FLAC SKIP HARTFORD, MOBILE BAY August 5 .- Sin :- I have the honor to report to the Department that this morning I entered Mobile Bay, passing between Forts Morgan and Gaines, and encountering the rebel rum Tennessee, and the gunboats of the enemy, viz: The Schna, Morgan and Gaines. The attacking fleet was under way by 5:45 a. m., in the following order: The Brooklyn with the Actorora on her port side, the Hartford with the Metacomet, the Richmond with the Port Royal the Lackawana with the Seminole, the Monongahela with the Tecumsel; the Ossipple with the Hasca, the Oneida with the Galena. On the starboard of the leet was the proper position of the Monitors or iron-clads.

Fort Morgan opened upon us at 10 min ates past 7 o'clock, and seen after this the action became lively. As we steamed up the main ship chanel, there was some difficulty ahead, and the Hartford passed on

ahead of the Brooklyn.

At 40 minutes past 7 the Tecumsel, was struck by a torpedo and sunk, going down very rapidly, and carrying down with her all her officers and erow with the exception of the pilot and 8 or 9 men who were saved by a boat that I sent from the Meta-comet, which was alongside of me.

The Hartford had passed the boats before 8 o'clock, and finding myself raked by the rebel gunbouts, I ordered the Metacomof to cast off and go in pursuit of them, one of which, the Solma, she succeeded in capturing. All vessels had passed the forts by \$30 o'clock, but the rebel ram Tennessce was still apparently uninjured in city taxes are now due, and to say that he our rear. Asignal was atonce made to all will receive all interest on City serip is the fleet to turn again and attack the ram, not only with guns, but with orders to run her down at full speed. The Monongulela was the first that struck her and though she may have injured her badly, yet she did not succeed in disabling her. The Lackawana also struck her but ineffectually. The flag-ship gave her a severe shock with her bow and as she passed fired into her a whole port broadside of solid 9 inch shot and 13 pounds of powder at a distance of not more than 12 feet The ironelads were closing upon her and the Hartford and the rest of the fleet were bearing down upon her, when at 10 a. m ..

she surrendered. The rest of the rebel fleet, viz: The Morgan and Gaines suction of Fort Morgan. This terminated the action of the day.
Admiral Buchanan sent me his sword being himself badly wounded with a com-pound fracture of the leg which it is sup-posed will have to be ampulated. Having had many of my own men wounded and the surgeon of the Tennessee being

very desirous to have Admiral Buchanan removed to the hospital, I sent a flag of truce to the commanding officer of For-Morgan, to say, that if he would allow the wounded of the fleet, as well as their own to be taken to Pensacola where they could be better eared for than here, I would send out one of our vessels provided she would be permitted to return bringing back what she did not take out. Gen. Page consented and the Metaconed was

The total less on our side is 40 killed and 88 wounded.

On the robol rum Tennessee, we captured 20 officers and about 170 men. On the Selma were taken 90 officers and men. I will send a detailed dispatch by the first opportunity. Very respectfully, your

obedient servant, D. G. FARRAGUT. Rear Admiral. Hox. Gideon Wells, Sec y of Navy.

NEW YORK; August 15 .- The New Or leans Era says Admiral Farragut chose a novel position in going into the fight at Mobile, and maintained it throughout all the terrible fighting. Desiring at once to overlook the enemy and watch the movements of his own fleet, he ascended to the main top of the Hartford and was then lashed fast. A speaking trumpet was run down to the deck and an officer stationed at the lower end to receive the Admiral's orders and pass them to the officer whose duty it was to see them executed. This proved to be a most admirable ar-

rangement.
Washington, August 16.—Sceretary Stanton in a dispatch to Gen. Dix says the Government received an official report of the surrender of Fort Gaines and abandonment of Fort Powell from Gen. Canoy. Gaines surrendered unconditionally with 50 officers, 318 men, armament of 20 guns and provisions for 12 months, the garrison of Powell escaped. The armament of Gen. Grauger will immediately invest Fort Morgan and garrison Gaines and Powell.

FROM GRANT'S ARMY.

HEADQUARTERS ARMY OF THE POTOMAC, August 14, 7 A. M.—Considerable firing has been kept up all night between pickets on the centre and right. Yesterday morning about daylight heavy firing was heard in the direction of James river, which lasted for about two hours. It is Butler's, who are cutting a canal across a small Peninsula on James river.

Washington, August 15.—The mult moved up the river during the night and under cover of the fire of the gunboats elfected a landing near Dutch Gap. The object of this move is stated to be the dis-

LOCAL MATTERS. BY TELECRAPH. lodgment of a considerable force of the ennoissance to ascertain what troops Lee has before Richmond, and if he is sending any considerable reinforcements to Early. Heavy firing was going on when the Vanderbill left, both cannonading and

musketry. Capt. Fleming, with 60 men of the 16th N. Y. cavalry, who was sent on a scout, was attacked near Fairfax Station Thurs-

day by a body of Moseby's guerrillas. Capt. Fleming and eight of his men were killed and most of the others were tuken prisoners. Capt. Fleming's body was found near the road and taken to Fall's Church and puried.

Sunday morning several rebel scouts were seen near Fort Snyder. They fired upon our pickets in several directions. Sergeant Linden, of the 16th cavalry, who vas on picket on the Braddock road, was killed. Our scouts are on the alert on the hills and valleys and through the woods, out are unable to catch these picket-shoot

ing assassins and marauding highwaymen.
New York, August 16.—The World's
Washington special says: plenty of rumors are in circulation here to-day in regard to the movements of the different armies in Va., most of which undoubtedly is without foundation. There seems to be little doubt, however, that important changes are going on in the disposition of rebel forces, which of course must cause corresponding movements on the part of our armies, which will take some time yet to develop.

The Herald's City Point correspondence of the 14th, says but little firing has occurred for a week past until yesterday about 6 a. m., heavy guns were heard in the direction of Deep Bottoms, and steady and sometimes furious firing was kept up all day. The attack was commenced by the enemy, and proved to be an attempt to dislodge with their artillery certain working parties of ours that they seemed to have ust discovered. Their batteries were unable to accomplish it, however, and I or 2 of their rams dropped down the river as far as was prudent, and added their fire to the other. The affair was an artillery engagement at long range, in which our losses are inconsiderable, and theirs of course are unknown.

The character and design of the opera-tions referred to in which the working parties were engaged cannot be more than illuded to at present. Time must develope them further.

The Herald's Point of Rocks correspon dent of the 1-1th says for some time past Butler has been coming over a brilliant scheme wherewith to annoy the enemy and advance Union interest in this region materially. His plan contemplates nothless than the construction of a capal at what has been hitherto known as Dutch Sap, hereafter to be known as Butler's in the direct face of the enemy Gap, in the direct face of the energy, which when done should, among other results, by reason of its situation, compel the rebels to extend their line of defences a distance of 4 miles, that is to say save to us by digging the canal, which is to be 140 yards in length, 7 miles of water

aurse in James river. This morning the men engaged on this work were shelled by rebel rams. but our

gunboats soon drave them away.

The Herald's correspondent before Petersburg of the 13th, says the rebels have erected a new fort on the site of the exploded one, and opened yesterday with 2 Whitworth guns. Remarkably few casualties occur: yesterday I heard of not more than 4 or 5, and yet the robels threw at least several hundred shells during the

I hear that Gen. Grant has some important move in view not proper to indicate now A large number of transports have been sent down the river and it is surmised that they are to assist in removing

Gen. Grant's troops.

Large bodies of cavalry have been brought here and a heavy movement up he Shenandoah Valley is looked for soon. Gen. Hood is supposed to have been largely reinforced, and the capture of Atlanta may be delayed.

The Richmond Examiner says Chamersburg was burned by an order of Gen Early, in case \$100,000 were not paid as remuneration to Senators Hunter, Butler

and Gen. Lee whose houses were de stroyed by Gen. Hunter.
Information has been received here that

the rebels intend making another raid. New York, August 16.—The Times, Washington special says that Sherdian has pushed his advance from Winchester to Strasburg. Early is retreating from that point westward. It is believed to be Sheridan's intention to head off Early and envelope him between two forces, but as his wife to New Richmond, O. his own request of the command of the 4th army corps, has gone to his some in Indiana on leave of absence. That part of Kentucky lying west of the Cumberland River have been added

to the Department of the Ohio and placed under command of Gen. Burbridge, who will under direction of Gen. Schofield exercise the functions of the Department ommand. Washington, August 16 .- A telegram from Sheridan dated the 14th, at Gedar Creek, states there is no enemy this side of

Blue Ridge except Moseby's and White's querillas. Sherman in a dispatch says the story of the plunder taken from Maryland by the rebels is a humbug. The Department has received unofficial reports that movements were being made

Indianapolis, August 15.—The rebels inder Col. Johnson, estimated at 1500, captured 3 steamers near Shawneetown, Ill., Saturday night. The steamer were louded with fat cattle belonging to the government. Our forces being along the Ohio river protected the borders of Indiana. At last accounts the rebels were ferrying cattle across the Kentucky river. It is now supposes that they will not at-

The steamers Kale Robinson, Jen-ny Perkins, Nightengale, Fanny Brandon

FROM THE SOUTH.

Fr. Morroe, August 16.—The Richmond papers, dated August 11th, contain the following of interest: Mrs. Dr. Mary E. Walker, captured in Georgia upwards of five months ago, has been re-leased from Castle Thunder, and goes down under a flag of truce. She was ex-changed as a surgeon and has arrived at Oid. Point.

The Savannah Republican says in relation of recent movements in upper Geor-gia is joyful. We hold our position at Atlanta. To crown the glory of our victory he famous Gen. Storeman, the pet of the Yankees, has been vanquished. He himself and 50 other officers and men arrived at Macon. This is glorious news enough for a campaign. The sudden appearance of Roddy at Newman and this signal victory over the Yankees at this point were as much unexpected as gratifying, he is now in Sherman's rear with a large and ralorous force, and we shall soon hear from him again. DIARRHEA AND DYSENTERY.

We have examined a great number of letters from me of the most prominent citizens of Cincinnati and Covington, etc., speaking in the highest terms of Dr. Strickland's Anti-Cholera Mixture for the cure of diarrhosa and dysentery. The letters are too long to publish. Mr. Woods, of Covington, says he was pronounced incurable by the best doctors in Cincinnati, and one bottle of Dr. Strickland's Anti Cholera Mixture effected a permanent cure after suffering for mouths with the worst form of diarrhon and dysen-

Another says he was discharged from the United States service after suffering in the hospital for eight months in incurable, and as a last resource tried Stricklaud's Anti-Cholera Mixture. He got well diectly and has now entered the army again in good calth. One man writes he has cured seven or eight very bad cases of diarrhoga and dysentery in the baracks he was in with one bottle of this valuable medisine. In fact we could fill half our paper with similar items from these letters. Why does not our governent secure this valuable preparation? Our army ought to be supplied with it. It is but a short time since one of our men lay in a very low condition at one of our Cincinnati Hospitals, his wife was sent for. The doctors considered his case an hopeless case. She, however, gave him Strickland's Anti-Cholera Mixture, and in three weeks he was able to return home with at home speak for themselves. We hope all the soldiers will put a bottle of it in their knapsacks. It may ave them or some of their comrades. It is for sale by Oruggists at 65 cents per bottle.

In view of the important movements now taking place in Mobile Bay, the following from the Evening Post will be read with interest:

Admiral Farragut has eight iron-clads, two of them carrying two turrets each, and twenty-four wooden steamers of different classes-in all a fleet of thirty-two ships, carrying two hundred and thirtyone guns, a large proportion of these being of the heaviest calibre ever used at sea, such as two hundred and three hun-

though they will play their part in the ascent of the river after the bay is opened.

The city of Mobile lies thirty miles from the sea, at the head of Mobile bay. The bay, which is large enough to accomodate a fleet of a thousand ships, and in which before the war it was not uncommon to see two or three hundred merchantmen lying, waiting for their freight of cotton, is guarded by two forts, Morgan and Unines, built by the United States, and strong easemated structures, one, Fort Morgan, mounting one hundred and thirty-six guns. The robels have created some other works in support of these, and have closed the chan- him to join a temperance society. nel, it is said, with a series of piles, leaving only a narrow passage open, which is

tected further by Dog River Bar, which has but eleven test of water, and prevents any except light-draft vessels from appreaching Mobile itself. Hood's retreat, and his supplies.

AFTER THEM.—The Whitewater Register compliments two classes of men in that community, as follows:

"Whitewater has some men whose liberality and large-heartedness are an everlasting credit to our town and an honor to human nature. When men not liable to military service, come forward vountarily, and give \$100, \$200, and \$300, to help the town to fill its quota, it shows that they have a heart and soul in their bodies, and worship some God beside the "almighty dollar." The conduct of such men is in refreshing and noble contrast with that of wealthy men who hug their greenbacks tightly, lest perchance a dollar should get loose and be expended for something that would benefit mankind at large. Let the public give such men the cold shoulder, and make them feel the contempt by which they are regarded by the community which tolerates them.

You talk of the prosperity of your city. I know but one true prosperity. Does the human soul grow and prosper here? Do ask who throng them? Is it a low-minded self seeking, gold worshipping, man-despising crowd which I see rushing through them? Do I meet in them under of fashion? Do I meet the young man, showing off his pretty person as the peren hours in dissipation and sloth, and profligate? Do I meet a grasping multitude, seeking to thrive by concenhments and fraud? An anxious multitude, driven by fear or want to doubtful means of gain? An unfeeling multitude, caring nothing for others, if they may prosper and enjoy? In the neighborhood of your comfortable or splendid dwelling are there | the hot July sun. The Hartford Times abodes of squalid misery or reckless crime, has a verification of the story from the of bestinl intemperance or half famished owner of the chickens, who has refused an children, of profuneness, dissoluteness or temptation for thoughtless youth? And are these multiplying with your prosperity, and outstripping and neutralizing the influences of truth and virtue? Then your prosperity is a vain show. Its true use is to make a better people. The glory and happiness of a city consists not in the number, but the character of its inhabitants. Of all the fine arts in a city, the grandest is the art of forming noble specimens of humanity. The costliest productions of our manufacturers are cheap, compared with a wise and good human being. A city which should practically adopt the principle that a man is worth more than wealth or show, would place itself at the head of cities. A city in which men should be trained worthy of the name, would become the metropolis of the earth. -Dr. Channing

Admiral Farragut and Mobile.

In view of the important movements new taking place in Mobile Bay, the following from the Evening Post will be read with interest:

Admiral Farragut has eight iron-clads, two of them carrying two turrets each, and twenty-four wooden steamers of different classes-in all a fleet of thirty-two ships, carrying two hundred and thirtyone guns, a large proportion of these being of the heaviest calibre ever used at sea, such as two hundred and three hun-

dred-pounders.
This is probably the largest American fleet ever gathered for a single operation; it contains, however, a number of small vessels of light draft and few guns, which can scarcely have an important share in the bombardment of the outer forts, though they will play their part in the ascent of the river after the buy is opened. The city of Mobile lies thirty miles from

the sea, at the head of Mobile bay. The bay, which is large enough to accomodate a fleet of a thousand ships, and in which before the war it was not uncommon to see two or three hundred merchantmen lying, waiting for their freight of cotton, is guarded by two forts, Morgan and Gaines, built by the United States, and strong casemat-ed structures, onc, Fort Morgan, mounting one hundred and thirty-six guns. The rebels have created some other works in support of those, and have closed the channel, it is said, with a series of piles, leaving only a narrow passage open, which is

preaching Mobile itself. If, however, Admiral Farragut passes the outer forts, and gets command of the bay, a small force will be sufficient to reduce the city, which at last accounts was guarded only by the remnant of local militia left by the rebel conscription.

It remains to be seen what effect this movement of Farragut's will have on Hood, who will not relish such a fire in the rear. If Mobile falls, we have gunhoats which can steam up the Alabama and Tombigoee, and fatally interfere with Hood's retreat, and his supplies.

AFTER TREM.—The Whitewater Register compliments two classes of men in that community, as follows:

"Whitewater has some men whose liberality and large heartedness are an everlasting credit to our town and an honor to human nature. When men not liable to military service, come forward vountarily, and give \$100, \$200, and \$300, to help the town to fill its quota, it shows that they have a heart and soul in their bodies, and worship some God beside the "almighty The conduct of such men is in refreshing and noble contrast with that of wealthy men who hug their greenbucks tightly, lest perchance a dollar should get loose and be expended for something that would benefit mankind at large. Let the public give such men the cold shoulder, and make them feel the contempt by which they are regarded by the communi-ty which tolerates them.

You talk of the prosperity of your city. I know but one true prosperity. Does the human soul grow and prosper here? Do not point me to your thronged streets. I ask who throng them? Is it a low-minded self seeking, gold worshipping, man-despising crowd which I see rushing through them? Do I meet in them under the femule form, the gaily-decked presti-tute, or the idle, wasteful, nimless woman of fashion? Do I meet the young man, showing off his pretty person as the per-fection of nature's work, wasting his golden hours in dissipation and sloth, and bearing in his countenance the gaze of the profligate? Do I meet a grasping multitude, seeking to thrive by concealments and fraud? An anxious multitude, driven by fear or want to doubtful means of gain? An unfeeling multitude, caring pantry, from eggs purchased from his gronothing for others, if they may prosper and enjoy? In the neighborhood of your comfortable or splendid dwelling are there abodes of squalid misery or reckless crime, has a verification of the story from the formula intermediate or splendid the story from the completed the work begun by the hot July sun. The Hartford Times abodes of squalid misery or reckless crime, of bestial intemperance or half famished children, of prolaneness, dissoluteness or temptation for thoughtless youth? And are these multiplying with your prosperity, and outstripping and neutralizing the influences of truth and virtue? Then your prosperity is a vain show. Its true use is to make a better people. The glory and happiness of a city consists not in the number, but the character of its inhabitants. Of all the fine arts in a city, the grandest is the art of forming noble speci-mens of humanity. The costless produc-tions of our manufacturers are cheap, compared with a wise and good human being. A city which should practically adopt the principle that a man is worth more than wealth or show, would place itself at the head of cities. A city in which men should be trained worthy of the name, would become the metropolis of the earth. -Dr. Channing

After having played on the Piano of Messrs. Knabe & Co., it is impossible not to bear testimony to their iqualities, which have acquired for them the eminent reputation which they enjoy. The Pianos of their manufacture, on which I have played, are exceedingly remarkable for their qualities. The base is powerful without harshness, and the upper notes sweet, clear and harmoniously mellow, (chrystaline), and I do not horitate to express in regard to these festiments, my entire satisfaction, and to declare that they are equal if not superior to the best manufactured in Europe or this country by the most celebrated makers.

DR. STRICKLAND'S

ANTI-CHOLERA MIXTURE,

ANTI - UNULPINA BRATURED, is a compound of astringouls, absorbents, stinutions and carminatives, which every physician acknowledges is the only preparation that will effect a perhament sure of Diarrhea and Dysentery. This Anti-Cholera Mixture is now in use in several of our Army Hospitals, where it gives the greatest satisfaction. It has saved the lives of thousand of our probabilities and sitizens, and we will guarantee it to be the best remedy in the world for Diarrhea and Dysentery.

Mr. Woods, of Contagon, Ky, will be most hoppy to satisfy any one as to the virtue of Strickinard's Anti-Cholera Mixture; in fact, we have a great number of restimoning from patients who have been cured after being pronounced incurable by their physiciens, some after taking only one bottle of Strickland's Anti-Cholera Mixture. If you sinfer with Diarrhea and Dysentery, try one bottle.
